

Weekly Progress Report

Name: Gone Sreshta

Domain: Food delivery application

Date of submission:01/11/2024

Week Ending: 01

I. Overview:

This week, the primary focus was on understanding USC_TIA and contributing to Python projects. Additionally, efforts were made to leverage learning resources for skill enhancement.

II. Achievements:

1. USC_TIA Familiarization:

- Explored USC_TIA documentation to grasp core functionalities.
- Successfully executed basic tasks, showcasing initial proficiency.

2. Python Project Contributions:

Name of the project:-

- Contributed code to Food Delivery Application with a focus on Online Delivery without our physical involvement and everything can be done using mobiles.
- Engaged in effective collaboration with team members.

3.Learning Python:

- Acquired proficiency in essential Python libraries, such as pandas, NumPy, sklearn_kit , databases and etc.
- Applied Python skills to real-world problems within USC_TIA context.

III. Challenges:

1. USC_TIA Integration:

- Encountered challenges during USC_TIA integration with VS code.
- Ongoing efforts to troubleshoot and ensure successful integration.

2. Python Project Complexity:

- Faced complexity in understanding the actual mechanism behind the web application between client and server of the Python project.
- Seeking guidance to overcome challenges and enhance understanding.

IV. Learning Resources:

1. USC_TIA Documentation:

- Utilized USC_TIA official documentation for reference and troubleshooting.
- Attended relevant webinars and online tutorials to deepen understanding.

2. Python Learning Resources:

- Engaged with some of the online resources like ChatGPT to strengthen Python skills.
- Participated in many of the web development interns for practical application.

V. Next Week's Goals:

1. USC_TIA Enhancement:

- Address integration challenges and explore advanced USC_TIA features.
- Collaborate with peers to contribute to USC_TIA improvement discussions.

2. Python Project Development:

- Tackle more complex tasks within the Python project to increase contribution.
- Seek feedback from mentors and peers for continuous improvement.

VI. Additional Comments:

Learnt a lot from building a web food delivery application through this opportunity
